

FULLY REVERSIBLE

THE BEST WINDOWS ARE MADE FROM

Fully Reversible Window System

The ultimate reversible window design is packed with essential safety features and with built-in Aeroframe™ technology offers a cost-effective way to achieve the highest standards of thermal performance. At the same time, the window provides fresh, modern aesthetics – a striking deep bevelled shape that's easy to live with and easy to clean.

Designed principally for medium and high-rise use, this window's practical operation makes it ideal for any project or property with access issues. Importantly, the window rotates 180° without entering the room space, leaving curtains or blinds unaffected.

BIM

Building Information Modelling is both maturing and advancing. Originally viewed by many as 3-D representation, BIM platforms now embrace dimensions such as time and cost and have the capacity to revolutionise collaboration and project outcomes. Our contribution – BIM Objects for our systems – ensures there's transparency on standards and processes, supporting the venture and its team in decision making and ensuring that digital information is complete and accessible to all project stakeholders.

You will find the BIM Object relating to the Vertical Sliding system on our website.

RIBA Product Selector

RIBA's resource is freely available and allows you to access our literature and other information about Profile 22. The RIBA website also links through to NBS Plus, the preferred specification system for the construction industry. Here Profile 22 window systems can be instantly added into a project specification by a designer, architect or contractor.

Stock Colours

Choice of foil colours

Dual colour options are also available. To discuss any specific colour requirements, please contact us.

Why choose Profile 22?

Profile 22 is the UK's leading window and door systems supplier. Part of the Epwin Group, the business has more than 40 years of proven expertise and is committed to excellence and high ethical and environmental standards. A continuing programme of investment in facilities, manufacturing technologies and its people has produced an outstanding range of high-performing products to suit the needs of every sector. Profile 22's systems are the mostly widely specified, trusted by architects, specifiers and construction professionals alike.

Profile 22 is an ISO 9001 registered business which works to OHSAS 18001 and the ISO 14001 environmental management standard. A member of the VinylPlus initiative, it is committed to sustainable practices.

Fully supported

We can offer all the support you need. From initial consultations, with no obligation, right through to full specification help, advice and project planning from start to finish.

We have a highly experienced field and office based technical support team and a network of Profile 22 Approved Commercial Manufacturers, whose training, skill and dedication will contribute to the success of your project.

Fully accredited systems

The Flush Casement system is Secured by Design accredited, giving peace of mind to the end-user. Windows have been tested and approved to PAS24 (enhanced security performance requirements for doorsets and windows in the UK).

The system is manufactured to BES6001, ensuring that its constituent materials have been responsibly sourced, and allowing additional points under BREEAM.
